PROFILE

Dedicated and enthusiastic Electronics and Communication Engineering graduate seeking an entry-level position in the field of Electronics and Communication Engineering. Eager to utilise expertise in digital electronics, VLSI design, verilog programming and Python to contribute to innovative projects and advance my career. Proven problem solving abilities and a strong foundation in the principles of design and simulation

PROJECT

VERSATILE LAND ROVER

The Versatile Land Rover is a multi-purpose vehicle that moves in hilly and hazardous areas, detects unauthorised using face recognition, provides job opportunities for handicapped people, and serves as a low-cost fertilizer sprayer for farmers.

IOT BASED SMART VEHICLE SYSTEM

IoT-based Smart Vehicle Safety System prevents accidents by detecting drunk driving and driver drowsiness, ensuring proper airbag deployment, and providing real-time vehicle location tracking in emergencies for enhanced safety and quick assistance.
